

INGLESE

Welcome to the _____ school

Dear _____

We are happy to meet you and also to receive you in our community.

We know that you don't speak very well our language and unfortunately we don't speak your language too ,so for this reason sometimes we may not understand each other and it may be difficult for us to comunicate ,but this fact shouldn't scare us.

Time will help us to know and to understand each other better.

We trust in you and so we'll do everything we can to introduce you in the class as fast as possible :little by little together will find the way to get to know more things about us and to exchange experiences ,emotions and knowledges.

Day after day you will learn new and interesting things during the studies and you will be also satisfied for the time that you'll spend with us.

We are sure that TOGETHER will find the right way, wich will help us to grow and to become better persons.

Good start and...

Good work for all of us

Your principal,
Your teachers and class mates
